Thousands of Callers Ask Us This Million Dollar Question

How Much Will My Move Cost?

Truthfully- No One Knows an Exact Amount... Until Move Actually Takes Place

WHAT?? WHY?? **The FACT is Each and Every move is Unique in their own way**

Main Factors Affecting Move Cost

1) Approx Move Size ... Amount, Type and Value of Items Being Moved

Live Lightly or Sort of A Pack Rat? Costly Real Wood Heavy Furniture or Light Weight Ikea Type?

2) Travel Distance/Time Between Pick-up and Destination Including Traffic Conditions

Moving just a few miles away (5 mins) or moving from San Jose to San Francisco (70 mins)

3) Logistics Parking, Steps, Stairs, Elevators, Long Carry, Access and Distance To Entrance

Ground to Ground Moves = Easiest/Quickest vs 3rd Floor Apt w/stairs to a 12th Floor Apt

4) Move Day Readiness... Pre-Packing and Organizing of Personal Items

Furniture Aside..... Ideally EVERYTHING is Pre-boxed ready to transport & secure in Truck

Specific Move Details Using The 4 Factors Above ... Make It Possible To Provide Realistic Answers to The Question...

“We Live In The Same Size Place as Them... But Their Move Cost Much Less?”

Time It Takes To Move??

HISTORICAL MOVES

COST EFFECTIVE EXTREME—Client Was Very Adamant About Being On A Limited Budget For Her 3 Bedroom Size Move While Reserving. She Actually Recruited Church Volunteers to Pack and Get Everything Already Outside on the Sidewalk For Quick Loading When Movers Arrived!

WORST IN COST EFFECTIVENESS — University Students (couple) Studio Size Move From 18th Floor to a 12th Floor insisted on only 2 Movers Stating Their “Few Items” Would Be Packed and Ready. Arriving Movers Found the couple still sleeping after their big all night “moving away” party. Place was trashed, Nothing Pre-packed, Tons of Stuff and No Packing Materials. A \$300 Studio Move took 7 hours Costing their Parents \$900!

TIP: Be Realistic About Your Move —> Always Better To Over Estimate than to Under Estimate...

Extremely Common for Individuals Describing Their Move to “Lessen” or “Down Play” amount of Items and Actual Conditions onsite at locations of the relocation. “Under Estimating” usually leads to additional stress & aggravation move day when a 3 bedroom home not completed in only 3 hours YOU unrealistically envisioned, planned & budgeted for. Reality Check!
